

BOX-O'-LANTERN

Design 1

- 1 Print this stencil.
- 2 Tape or glue the stencil to the inside top of a Domino's pizza box.

- 3 Carefully cut along the dotted lines. Pizza boxes are thick, so it may take some effort.
- 4 When finished, position the box so that the lid is standing up. You may want to use a little tape.
- 5 Place a flashlight or other light source in the bottom of the box to illuminate your box-o'-lantern.
